

LYTE C PASTE

Complementary feed for horses and ponies

Characteristics

Prequine Lyte C Paste is a balanced mix of physiological salts known to be essential to normal body function. Prequine Lyte C Paste is formulated for quick and efficient replacement of vital electrolytes. It rapidly replaces moisture- and mineral loss during competition, strenuous exercise and transport. The optimal balance of sodium and potassium will rapidly compensate dehydration and mineral loss during training/sport.

Composition

Contains per 50 g injector: Propylene Glycol, Sodium chloride, Potassium chloride, Dicalciumfosfaat, Glycerin, Calcium chloride

Feed additives per 50 g:

Functional Group:	Id.nr.:	Additive:	Amount:
Vitamins	3a300	Vitamin C	3 g
	3a825i	Vitamin B2/Riboflavin	17 mg

Analytical constituents:

Crude protein	0,9 %
Crude fibre	< 0,3 %
Crude fats	< 0,5 %
Crude ash	18,0 %
Moisture	70,1 %
Sodium	30.000 mg/kg
Magnesium	400 mg/kg
Phosphorus	10.050 mg/kg
Calcium	15.600 mg/kg

Directions for use

Administer after feed

Horses: 1 injector (50 g) before the event or training, repeat during or after event if necessary.

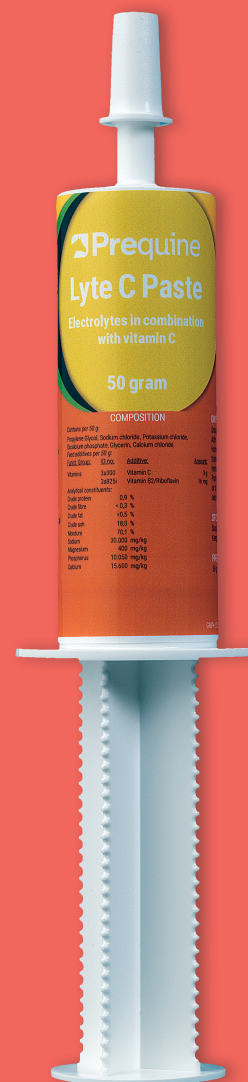

Ponies: ½ injector (25 g) before the event or training, repeat during or after event if necessary.

Storage

Store at 15-25°C.
Keep out of sight and reach of children.

Presentation

50 g oral injector.
